HELPING YOUTH SUCCEED AT SCHOOL

A former student shared this story: "When I was in high school my family didn't make a lot of money at all. We always had a roof and clothing but it was always really nice to know that if I woke up hungry when I got to school I would be able to have a snack in the morning when there was no breakfast at home."

1880

\$75K

dollars invested

1

program funded

16

agencies supported

NOT EVERY CHILD HAS THE SAME OPPORTUNITY TO SUCCEED.

22%

of youth do not complete high school by age 18 which significantly limits their future possibilities. Together we can change that.

1653

Children and youth were supported in your community through mentoring, after-school programs, a school breakfast and snack program and being taught about managing money.

1 program in your community is funded

Sundre and District Nutrition for Learning

- School breakfast and snack program

In a region with such diversity, 211 is helping community members find the services they need at www.ab.211.ca

19 outreach programs support more than 900 people in your community
